CENTRAL DRAINAGE POINT

ANCHORING SYSTEM: 1 HOLE

THE OPENINGS ARE SEALED  
WITH PP CAPS AFTER  
INSTALLATION

REINFORCED CORNER DESIGN  
ALLOWS QUICK INSTALLATION AND  
KEEPS THE SEAT SECURELY FIXED

# MT-2041

## DESCRIPTION

### Product Overview

The **MT-2041** is a compact, backless stadium seat engineered for projects where space efficiency, durability, and ease of installation are essential. Its low-profile design makes it ideal for narrow terraces, telescopic seating systems, and mobile bleachers. Manufactured using advanced injection molding technology, the **MT-2041** delivers reliable performance under continuous public use while remaining lightweight and practical for large-scale installations.

### Key Features & Technical Highlights

#### Material & Manufacturing

- Injection-molded stabilized copolymer polypropylene
- Lightweight construction with high structural reliability
- UV-stabilized material to resist fading, brittleness, and discoloration

#### Surface Finish

- Smooth glossy finish
- Easy to clean and maintain
- Resistant to stains, dirt, and daily wear

#### Design & Durability

- Backless, space-saving profile suitable for narrow seating layouts
- UV-stabilized with anti-UV additives
- Resistant to color fading and material brittleness caused by sun exposure
- Fully sealed perimeter prevents dust, water, and debris accumulation
- Integrated central drainage outlet for outdoor installations
- Suitable for outdoor installations in harsh climates

#### Dimensions & Weight

- Width: 40 cm
- Depth: 37 cm
- Height: 13 cm
- Weight: 1 kg
- Optimized for easy transport, handling, and installation

#### Anchorage System

- Single central anchoring point
- Ensures stability while minimizing fixing hardware
- Front edge shaped to align cleanly with terrace steps

#### Installation Flexibility

- Individual installation: step-mounted, riser-mounted, or floor-mounted
- Collective installation: fixed or mobile benches
- Compatible with both concrete and metal substructures

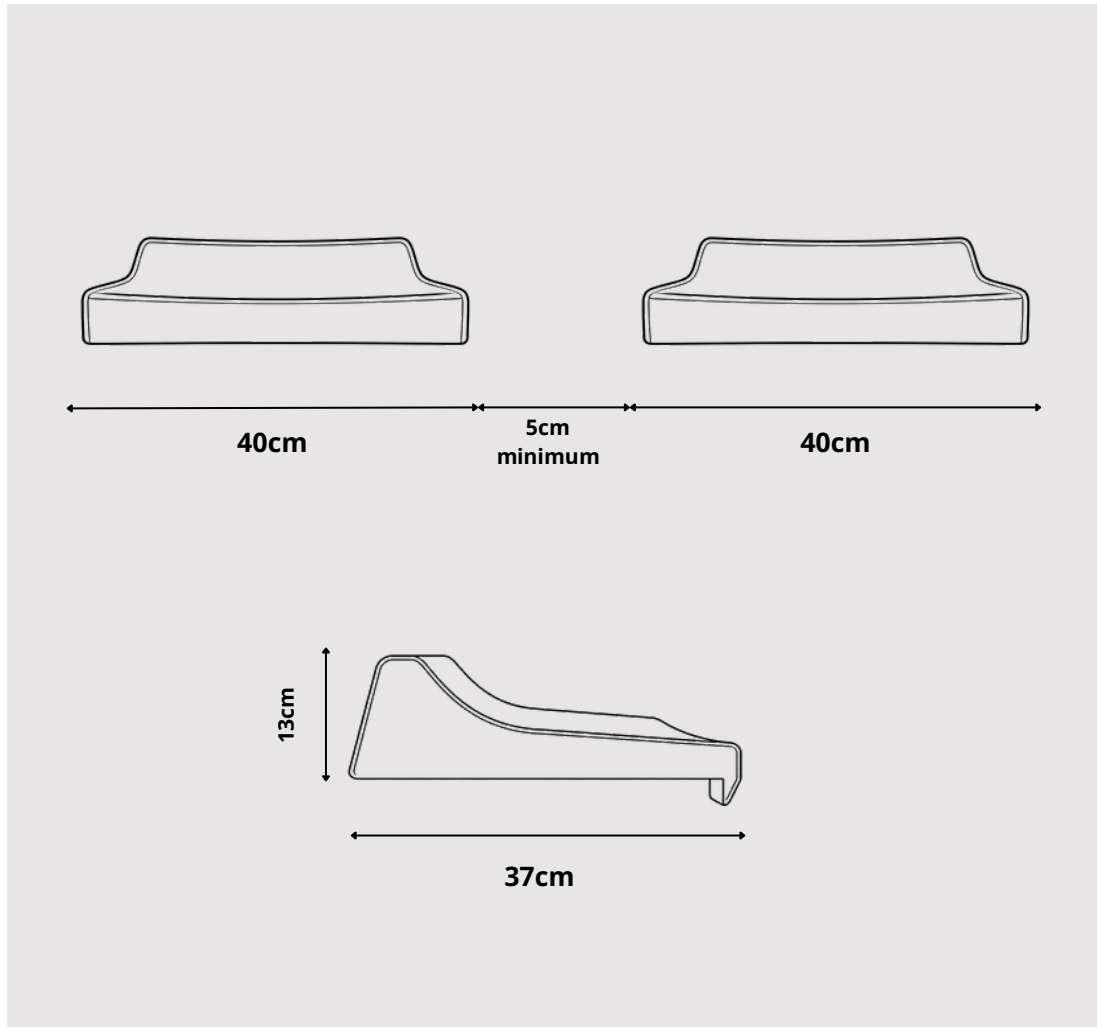

#### Standards & Warranty

- Engineered for durability, dimensional stability, and long-term use in public venues
- Backed by a 5-year manufacturer warranty covering color fading, material defects, and manufacturing defects

## DIMENSIONS

### **STANDARDS & WARRANTY**

- Manufactured from UV-stabilized Polypropylene
- 5-year manufacturer warranty covering color fading and material & manufacturing defects

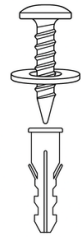

# MT-2041

## INSTALLATION

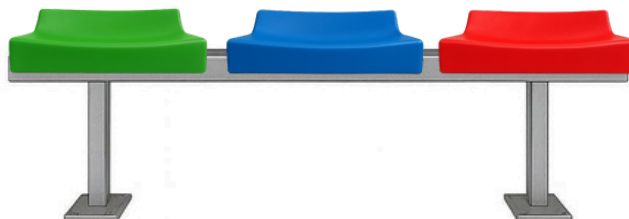

### Concrete:

Installation is carried out using one anchoring point.  
The anchoring point requires: one 6 mm screw, one 8 mm wall plug (fischer), and one flat washer sized M6.

### Metal Stands:

Installation is carried out using one anchoring point.  
The anchoring point requires one bolt, one nut, and one washer, with sizes determined by the hole dimensions provided.
